

Why it matters, in three numbers.

18%

of everything a kitchen buys is thrown away.

WRAP, UK Food Waste and Food Surplus Key Facts, July 2025. Across food service, not a Tyll result.

7×

return for every euro hotels invested in cutting kitchen waste.

WRI and WRAP for Champions 12.3, 2018. 42 hotels, not a Tyll result.

€1,150

lost on one item, in one bar, in one month.

Measured in a Tyll pilot, one hotel bar, one month. 190 Cokes sent, then taken off the bill with no reason. Nobody noticed until Tyll did.

Hotels lose money every night.

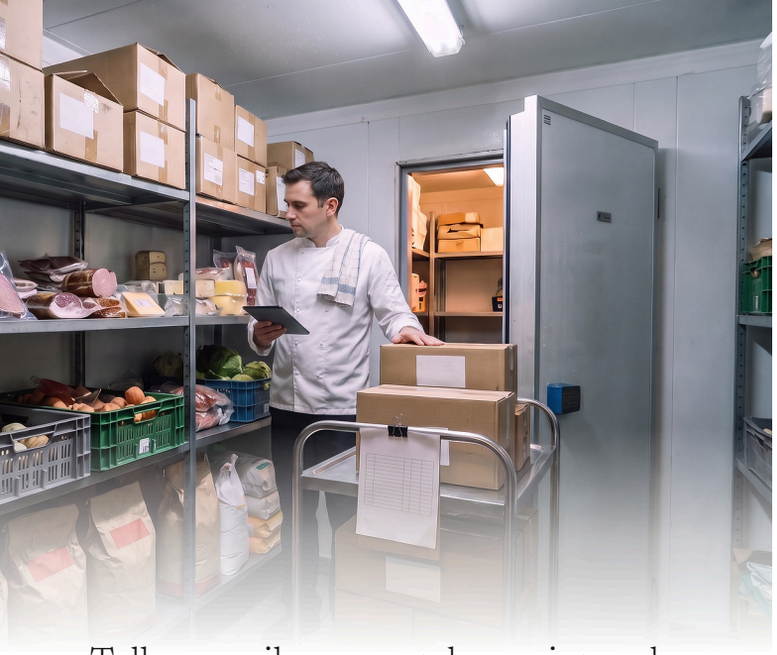

Tyll shows them where.

- ✓ Every tab, receipt and invoice checked
- ✓ Know where your stock goes
- ✓ One order list every morning

30 days free.

No fee unless the pilot finds real money.

tyll.ai

Tyll reconciles every tab, receipt and invoice overnight, then turns the numbers into a stock count and an order list your team can act on.

STOCK AND WASTE

Know where your stock goes. One ten minute count on a phone, and the gap is explained.

PURCHASING

Order what you will sell, not a guess. One list per supplier, built from the count and the forecast.

REVENUE AND RECONCILIATION

Find the money that left without a reason. Each night's tabs checked against the receipts.

Every morning: what went missing yesterday, and what it cost you.

Four steps. Then every morning you see what your hotel lost.

1. **Book a 15 minute call**
   We look at your outlets together and check that Tyll fits.
2. **Free stock count**
   We count your bar with your team. About 10 minutes per person.
3. **We read your POS**
   Tyll reads last night's sales from the system you already use.
4. **Your daily report**
   Every morning: what went missing yesterday, and what it cost you. Free for 30 days.
